Net interest income

Net non-interest income*

*Due to the settlement of a legacy claim, the fair value revaluation of the receivable resulted in a one-off other income of GEL 21.1 million posted in 2Q23 and 1.5 million posted in 4Q23. Net other income and thus operating income were adjusted accordingly.

Robust y-o-y Group performance in net non-interest income

All currency data are in GEL m unless otherwise stated

Net fee & commission income

Net foreign currency gain

- Net fee & commission income q-o-q decline driven by seasonally higher loyalty programme costs in 3Q24 in GFS, and a high base of a significant advisory fee (GEL c.10m) booked in 2Q24 in AFS
- Without the positive net effect of c.GEL 25 million booked in 3Q23 in GFS, net fee and commission income of GFS would have been up 21.0% y-o-y in 3Q24

Investing in growth, while maintaining the focus on efficiency

All currency data are in GEL m unless otherwise stated

Operating expenses

Cost to income ratio*

- The y-o-y growth on the Group level in 3Q24 as well as 9M24 was mainly driven by the consolidation of Ameriabank, although increases have also been experienced at GFS, mainly due to higher staff costs and continuing investments in key strategic areas

*Due to the settlement of a legacy claim, the fair value revaluation of the receivable resulted in a one-off other income of GEL 21.1 million posted in 2Q23 and 1.5 million posted in 4Q23. Net other income and thus the cost to income ratio were adjusted accordingly.

*Cost of credit risk adjusted to exclude the effect of Ameriabank's consolidation at the end of March on average balances.
** In 2Q24, cost of credit risk included GEL 49.2m initial ECL charge related to the acquisition of Ameriabank. The initial ECL charge was posted in accordance with IFRS accounting rules relevant for business combinations, requiring the Group to treat the newly-acquired portfolio as if it was a new loan issuance, thus necessitating a forward-looking ECL charge on Day 2 of the combination, even though there has been no actual deterioration in credit quality.
***For March 2024, the NPL coverage ratio and the NPL coverage ratio adjusted for the discounted value of collateral were adjusted to include the NPLs and respective ECL of standalone Ameriabank. The 31 March 2024 Group coverage ratio adjusted for the discounted value of collateral figures was restated to incorporate collateral cap up to outstanding loan amount for Ameriabank and ensure better presentation in line with the group policy.

*In 2Q24, GEL 0.7m was recorded as a one-off item due to a recovery of a small portion of the previously expensed acquisition-related advisory fee. The acquisition of Ameriabank in March 2024 resulted in 1Q24 one-off items totalling GEL 668.8m comprising a one-off gain on bargain purchase (provisional, subject to year-end audit) and acquisition-related costs. 9M24 operating income before cost of risk and subsequent lines in the income statement as well as ROAA and ROAE were adjusted for these one-off items. Due to the settlement of a legacy claim, the fair value revaluation of the receivable resulted in a one-off other income of GEL 21.1 million and GEL 1.5 million posted in 2Q23 and 4Q23 respectively. Net other income was adjusted for this one-off. As a result, ROAA and ROAE were adjusted for one-off other income in 9M23.

**Cost of credit risk included GEL 49.2m initial ECL charge related to the acquisition of Ameriabank. The initial ECL charge was posted in accordance with IFRS accounting rules relevant for business combinations, requiring the Group to treat the newly-acquired portfolio as if it was a new loan issuance, thus necessitating a forward-looking ECL charge on Day 2 of the combination, even though there has been no actual deterioration in credit quality.

Net other income was adjusted for this one-off. As a result, ROAA, ROAE and Cost:income ratio were adjusted for one-off other income in 9M23.
